

## Lazada's Business Risk Team Internship: A Step into AI and Risk Management

### Explore Your Potential at Lazada:

As you stand on the cusp of transitioning from academic excellence in AI to the vibrant tech industry, Lazada offers you a unique internship opportunity. Join our Business Risk team, focusing on Assortment, Content, and Ads Governance (ACAG), and embark on a journey that blends AI with the critical field of risk management.

### Why Consider the ACAG Internship at Lazada?

- **AI Exploration:** Engage with Large Language Models (LLMs) and other emerging technologies. Your contributions will help us navigate and mitigate risks, playing a part in the evolution of digital marketplace safety.
- **Meaningful Projects:** Engage in tasks ranging from policy research, operation excellence, to the development of risk strategies. Your work will directly influence the integrity and security of our platform.
- **Growth Opportunity:** This role offers a balanced mix of theoretical knowledge and practical application, providing insights into risk management and the chance to develop tangible solutions.

### Your Role and What You'll Do:

- **Policy Analysis:** Conduct compliance research and analysis to help us stay ahead of regulatory changes and ensure industry leadership in a compliant manner.
- **Strategic Support:** Assist in developing our risk management strategies. Your efforts in identifying risks and contributing to mitigation plans will be crucial in protecting our platform.
- **Data Analysis:** Utilize data to track and analyze key risk metrics. Your work will guide decision-making processes and risk prioritization, highlighting areas for improvement.
- **Operational Excellence:** Drive process improvements across risk management operations. Your focus on enhancing efficiency and effectiveness will contribute to the overall performance and quality of our risk mitigation efforts.
- **Risk Response:** Support our response to incidents, contributing to risk classification, remediation efforts, and analyses that help prevent future issues.

### Who We're Looking For:

- **AI Enthusiasts:** You're in your final year or have recently graduated with a degree in Computer Science or related fields, with a keen interest in AI and its practical applications.
- **Problem Solvers:** You have a knack for analyzing complex issues and deriving insightful solutions. You're eager to apply these skills in a dynamic, real-world environment.
- **Team Players:** Collaboration is key. You're looking forward to working alongside diverse teams, sharing knowledge, and contributing to shared objectives.

- **Quick Learners:** You're adaptable and continuously seek to stay informed about industry trends, ready to apply this knowledge in a fast-paced setting.

**Join Us on a Learning Journey:**

Lazada is not just a leading e-commerce platform; we're a hub for innovation, driven by a community passionate about shaping the digital landscape. As an ACAG intern, you'll play a vital role in this mission, with ample opportunities to learn, innovate, and contribute.

If you're ready to apply your passion for AI to real-world challenges in technology and risk management, we'd love to hear from you. Join us at Lazada's Business Risk team and take your first step into a world of professional growth and innovation.
